IN THE MATTER OF THE SECURITIES ACT,  
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF OF UNKNOWN FILM CORPORATION

RULING  
(Section 73)

UPON the application of Of Unknown Film Corporation (the "Issuer") to the Ontario Securities Commission (the "Commission") pursuant to subsection 73(1) of the Securities Act, R.S.O. 1980, c.466 (the "Act"), received in perfected form on November 26, 1982, for a ruling in respect of certain contingent trades in undivided ownership interests in a feature-length film production currently entitled "Of Unknown Origin" (the "Film");

AND UPON it appearing to the Commission that:

1. The Issuer is a company incorporated under the laws of Canada having its registered office in the Province of Quebec and is not a reporting issuer under the Act.
2. The Issuer has filed a prospectus dated November 26, 1982 with the securities regulatory authorities in the Provinces of Quebec, British Columbia, Alberta, Saskatchewan and Manitoba, and has obtained all necessary receipts therefor, relating to the offering for sale in such Provinces of 214 units of undivided interest comprising 50% ownership of the Film (the "Public Offering").
3. The Issuer has entered into interim financing agreements with, inter alia, Canadian Odeon Theatres Ltd. ("Odeon") and Film House, a division of Signum Communications Inc. ("Film

House") dated October 7, 1982 and as of November 4, 1982, respectively (the "Agreements"), with respect to the production of the Film.

4. The Agreements provide in effect that, in the event that upon closing of the Public Offering (which shall take place not later than December 31, 1982) insufficient funds are available out of the proceeds of the Public Offering to pay the full amount due to all third tier lenders, including Odeon and Film House, then Odeon and Film House agree to receive in full and final reimbursement of the unpaid principal amount of \$100,000 and \$150,000, respectively, of loans or deferred fees, as the case may be, undivided ownership interests in the Film equal to such unpaid principal amounts ("Undivided Interests") all in accordance with a certain Priorities and Security Sharing Agreement between the Issuer on its own behalf and the Issuer as agent for certain corporate investors dated as of October 7, 1982.

AND UPON being satisfied that to so rule would not be prejudicial to the public interest;

IT IS RULED pursuant to subsection 73(1) of the Act that the distribution by the Issuer of Undivided Interests to Odeon and to Film House in accordance with the terms of the Agreements and the said Priorities and Security Sharing Agreement, is not subject to section 24 or 52 of the Act, provided that:

1. the Undivided Interests so received by Odeon and by Film House are not resold except in accordance with subsection 71(4) of the Act as if that subsection were applicable;
2. a copy of this ruling is provided by the Issuer to each of Odeon and Film House together with a statement (the "Statement") that this ruling may deprive Odeon and Film House of certain protections, rights and remedies under the Act, including statutory rights of rescission or damages; and
3. prior to the distribution of Undivided Interests as aforesaid, each of Odeon and Film House shall sign and file with the Commission an acknowledgement to the effect that:

- (i) a copy of this ruling and of the Statement have been received, and
- (ii) the Undivided Interest to be received may not be traded in Ontario except in accordance with the terms of this ruling.

IN THE MATTER OF THE SECURITIES ACT,  
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF FISHER OIL AND GAS  
(U.S.A.) CORPORATION

AND

IN THE MATTER OF GUARANTY BANK AND TRUST COMPANY

RULING  
(Section 73)

UPON the application received in perfected form on September 20, 1982 of Guaranty Bank and Trust Company ("Guaranty Bank"), a bank and trust company in the United States of America having its head office in the State of Oklahoma, one of the United States of America, to the Ontario Securities Commission ("Commission"), for a ruling pursuant to subsection 73(1) of the Securities Act, R.S.O. 1980, c.466 (the "Act") that the proposed offer and sale, at public auction, by the Sheriff of the Judicial District of York (the "Sheriff"), pursuant to section 15 of the Execution Act, R.S.O. 1980, c.146, (the "Execution Act"), of certain shares (the "Shares") of Fisher Oil & Gas (U.S.A.) Corporation ("Fisher USA") owned by Fisher Oil & Gas Corporation ("Fisher Canada") are not subject to sections 24 or 52 of the Act;

AND UPON it being recommended by staff that the application be denied;

AND UPON reading the application and the staff memorandum and upon hearing counsel for (a) Guaranty Bank, (b) the Sheriff (c) Peat Marwick Limited, Trustee in the proposal of Fisher Oil & Gas Corporation under the Bankruptcy Act, R.S.O. 1970, c.B-3, as amended (the "Bankruptcy Act") (d) Fisher Canada, and (e) the Commission staff;

AND UPON it appearing to the Commission that:

1. Fisher Canada is a corporation continued under the Canada Business Corporations Act and is a reporting issuer within the meaning of paragraph 1(1)38 of the Act;
2. Fisher USA is a corporation subject to the laws of the State of Nevada, one of the United States of America, and is not a reporting issuer within the meaning of paragraph 1(1)38 of the Act;
3. the Shares, being 1,000 fully paid and non-assessable shares of common stock \$1.00 par value, represent all the issued and outstanding shares of common stock of Fisher USA and are held beneficially by and registered on its books in the name of Fisher Canada;
4. Fisher USA is engaged in exploration and development in the oil and gas industry primarily in the United States of America;
5. on April 22, 1982, Fisher USA initiated reorganization proceedings under Title 11 of the United States Code entitled Bankruptcy., 11 U.S.C., c.11, in an effort to reorganize its indebtedness to creditors, one of such creditors being Guaranty Bank;
6. on July 16, 1982, Guaranty Bank obtained default judgment in the Supreme Court of Ontario against Fisher Canada in respect of its guarantee of the indebtedness of Fisher USA to Guaranty Bank;
7. on August 25, 1982, the Sheriff, pursuant to the provisions of section 14 of the Execution Act, seized from Fisher Canada the share certificate representing the Shares;

8. pursuant to the provisions of section 15 of the Execution Act, the Sheriff may offer the Shares for sale to the public generally and is required to sell and convey the Shares to the highest bidder (the "Purchaser");
9. the proposed offer and sale of the Shares by the Sheriff is exempt from the registration requirements of section 24 of the Act pursuant to clause 140(aa) of Regulation 910, as amended to the Act;
10. on November 22, 1982, Fisher Canada filed a proposal under Part III of the Bankruptcy Act;
11. on November 24, 1982, Guaranty Bank, by originating notice of motion, made an application to the Supreme Court of Ontario for a declaration, under Rules 611 and 612 of the Rules of Practice of Ontario, that the form of proposal as filed by Fisher Canada was not a proposal within the meaning of Part III and Section 2 of the Bankruptcy Act;
12. on November 25, 1982, The Honourable Mr. Justice Smith of the Supreme Court of Ontario made a finding in favour of Guaranty Bank;
13. on November 25, 1982, a Notice of Appeal from the declaration made by The Honourable Mr. Justice Smith was served upon counsel for Guaranty Bank and filed with the Registrar of the Supreme Court of Ontario; and
14. to proceed with the application would not effect the substantive legal rights of the parties to the aforementioned court proceedings;

AND UPON the Commission forming the opinion that the information in the public file of Fisher Canada, filed pursuant to the continuous disclosure requirements of the Act and available for inspection because Fisher Canada is a reporting issuer, is not relevant to this application, and that, because the information contained therein is not current, the Commission should not, and does not in fact, place any reliance upon the information contained therein;

AND UPON the Commission being satisfied that to so rule would not be prejudicial to the public interest;

IT IS RULED that the proposed offer and sale, at public auction, of the Shares by the Sheriff pursuant to the provisions of section 15 of the Execution Act (the "Sale"), is not subject to section 52 of the Act, subject to the following terms and conditions:

1. Resale of any of the Shares by the Purchaser is prohibited except (a) upon the issuance of a receipt by the Director for a prospectus qualifying the Shares for resale in Ontario, or (b) pursuant to an available exemption under the Act or (c) a ruling of the Commission;
2. The foregoing condition shall be legibly and conspicuously noted on the share certificate representing the Shares and any certificate representing a division or subdivision thereof or any certificate issued in substitution therefor in whole or in part;
3. Fisher USA shall make a notation reflecting the substance of condition #1 upon its Shareholders' Register and Transfer Register and the Purchaser shall undertake to the Commission to cause such notation to be made thereon (the "Undertaking");
4. The Purchaser shall execute a written acknowledgement (the "Acknowledgement") in a form satisfactory to the Director immediately prior to or contemporaneously with the completion of the Sale that the Purchaser
  - (a) has received a copy of this ruling;
  - (b) acknowledges the limitations imposed by this ruling upon resale of the Shares; and
  - (c) is aware that this ruling may deprive the Purchaser of certain benefits and protections under the Act, including certain rights of withdrawal, rescission and damages and to the extent the Purchaser may be so deprived, waives such rights, benefits and protections; and

5. The Sheriff shall obtain from the Purchaser the executed Acknowledgement and Undertaking prior to or contemporaneously with the completion of the Sale and shall file such Acknowledgment and Undertaking with the Commission immediately thereafter.

---

This hearing was convened pursuant to section 124 of The Securities Act, R.S.O. 1980, c.466 (the "Act"), as a result of an investigation instituted on the basis of complaints made by EPM, to consider whether the Commission should order that any or all of the exemptions contained in sections 34, 71, 72 and 88 of the Act do not apply to Electra

by reason of various allegations specified in the Notice of Hearing. In particular paragraph 4 of the Notice of Hearing alleges that, during the period January 1, 1981 to May 28, 1982, Electra made a take-over bid to purchase the common shares of EPM through the facilities of the Montreal Exchange ("ME") without complying with Part XIX of the Act. Paragraphs 5 and 6 of the Notice of Hearing allege that Electra purchased substantially all of the common shares of EPM that traded on the ME during the period April 13 to May 13, 1982 and that such purchases, which aggregated 27,000 common shares or 5.4% of EPM's outstanding common shares in the 30-day period ended May 12, 1982, and 26,600 common shares of EPM or 5.2% of its outstanding common shares in the 30-day period ended May 13, 1982, were made contrary to the provisions of Rule VIII of the by-laws of the ME.

Mr. Rodgers introduced the matter and examined in chief Mr. Olaf Rasmussen ("Rasmussen") of Rasmussen, Sharp & Company Ltd. who acted as an introducing broker and received Electra's orders to buy EPM shares from Mr. A. George Dragone, Managing Director of Electra, and placed them with R.A. Daly & Company Ltd. for execution on the ME. At the conclusion of Mr. Rodger's examination the question of the standing of EPM in this hearing was raised. Counsel for EPM stated that EPM was named in the heading of the Notice of Hearing and counsel for EPM was shown as having been served with such Notice. Counsel for Electra objected to EPM having standing saying that a section 124 hearing involved a denial of Electra's rights not those of EPM. We referred counsel to the reasons of the Commission as to standing in a section 123 proceeding, In the Matter of Zenmac Explorations Limited et al, now reported at (1982) O.S.C.B. 542C.

Counsel for EPM stated that further submissions would be made at the adjournment of hearing to December 15, 1982 on behalf of individual shareholders. On that date Mr. Heintzman made further submissions citing a number of authorities in support of his position and emphasized that the consequences of an order of the Commission under section 124 were of direct importance to EPM and its shareholders. In that connection he argued for granting standing to three named shareholders of EPM as well as EPM on the ground they were directly affected by the conduct of Electra and by the outcome of this hearing. Counsel for EPM also suggested that he would be willing to be limited to direct examination of witnesses without the right to cross examine. Counsel for the Commission supported EPM's claim to standing.

Although we found helpful the reference by Counsel for EPM to such decisions as Re Starr and Township of Puslinch et al., 12 O.R.(2d) 40 (Div. Ct.1976); and Re Multi-Malls Inc. and Minister of Transportation and Communications, 7 O.R.(2d) 717 (Div.Ct.1975), we must keep uppermost the provisions and procedures of the Act in deciding the issue of standing and be careful not to adopt reasoning that reflects quite different circumstances from those before us.

We think the approach taken in Zenmac is directly applicable in this matter. Section 124 proceedings are adversarial in nature and prosecution of the complaints is in the hands of staff counsel. In our view the other parties to the proceedings are the individuals and persons against whom the proceedings are directed. To grant EPM status, which is to permit the intervention as a party of someone who might be perceived as being a second prosecutor, would not be appropriate. Indeed staff counsel should be viewed as adequately representing the interest of EPM and its shareholders in so far as section 124 of the Act is concerned.

Counsel for EPM also referred to a number of hearings before the Commission regarding take-over bids in which shareholders were granted status. However, it is worth quoting what we said in Zenmac on this point:

"Proceedings under section 123 or 124 of the Act or any other section which may result in orders against named parties are quite different in nature from applications for exemptions or rulings under section 99 in connection with take-over bids. In those cases we have invited any of the class of persons affected directly by the proposed order to appear, make submissions and give testimony. But there is a substantive difference from the kind of hearing held upon application for relief or variation from the requirements of the Act and proceedings instituted which, in the end result, will interfere with or remove the rights or privileges under the Act of the parties to the proceeding."  
(1982 O.S.C.B. at 545C-546C).

In short, in looking at the nature of a section 124 hearing, the power that the Commission exercises under it, and results that flow from its exercise, we conclude that neither EPM nor its shareholders should be granted standing. Staff counsel are, of course, free to call on officials of EPM or its shareholders if they think their evidence is relevant to the issues related to the allegations.

WILLIAM A. SIMONTON F.C.A

Mr. Simonton's appointment expired on December 31, 1982. He served as Commissioner from January 1, 1977 to December 31, 1982.

Before joining the Commission he was a partner in the firm of Price Waterhouse & Co., Chartered Accounts, in charge of the Toronto Office and member of The Executive Committee for Canadian Operations.

He is past President of The Institute of Chartered Accountants of Ontario and was active in the affairs of the Institute for a number of years. He was elected fellow in 1956.

The Commission appreciates the contribution by Mr. Simonton in matters of Financial Disclosure and Accounting.

The Commissioner and Staff wish him all the best for the future.

EXTRACTS FROM A SPEECH DELIVERED BY PETER DEY  
ON JANUARY 12, 1983  
AT A DINNER HOSTED BY THE ONTARIO DISTRICT COUNCIL  
OF THE INVESTMENT DEALERS ASSOCIATION OF CANADA

- I am prepared for these reactions, that is, prepared in the best way possible - with the support of a strong Commission. I have a new Vice-Chairman, Keith Boast. Keith has been at the Commission for 10 years in just about every capacity possible. During this period he has impressed us all with his technical expertise, dedication to our securities system and sound judgment. I am delighted to have the opportunity to work with Keith.
- Accounting questions and auditing practices are often significant considerations in the Commission's deliberations and so, we are fortunate to have Jim Kane's expertise and good judgment available to us. Jim is a former Chairman of Thorne Riddell.
- We have a very balanced representation from the legal community. On the one hand, we have my good friend Dean Frank Iacobucci of the U of T Law School and on the other, we will have in February my colleague from private practice, Jack Blain, from the McCarthy firm. These gentlemen have a wealth of experience in both teaching the law and advising on securities matters, experience which will be invaluable to us.
- Dutch Holland brings to the Commission years of experience as an entrepreneur, an entrepreneur who has promoted, acquired and disposed of companies in various lines of business, including the commodities brokerage business. I know that his experience will be important to us in dealing with the many issues we will face.
- Geddes Webster is a guy who has prospected for and still is prospecting for minerals. He knows so much of what faces the mining entrepreneur. His experience will be invaluable as we work with the TSE to develop our junior natural resource market.

- And finally, representation from the investment industry. Bud Miles, out of the Burns, Fry firm, has a lifetime of experience in the securities industry, both as a corporate financier and as a regulator, when he was the head of the TSE. His wise counsel will be relied upon heavily, and then we have Commissioner Bob Morgan and recently appointed Commissioner David Stanley, both formerly of Wood Gundy. Can you imagine Wood Gundy having two senior officers, named Morgan and Stanley? The non-resident firms go to great lengths to make their presence felt.
- Bob Morgan will be leaving the Commission at the end of this month. He has served the Commission with distinction. We will miss his contribution, but will try to obtain from him as much of his wisdom as possible in the next few weeks. David Stanley has just joined the Commission. We are delighted with his appointment and already have benefitted from his experience and judgment.
- I referred to a strong Commission. In addition to the actual members of the Commission, we seek support from the Commission staff. The staff is led by the Chief Administrative Officer, Charles Salter, who is the Director. One of the key considerations in my decision to join the Commission was to know that Charles would be the Director. Those of us who have had securities problems requiring quick and fair resolution will know how well Charles has performed this task. We are fortunate to have such a strong staff led by Charles.
- With this support, let me give you some indication of how I think we will operate as a Commission. Although we are still caught up somewhat in Harry and Henry's slipstream, we are trying very hard to establish our own set of priorities so that we will be a less reactive Commission and will have more time and other resources available for policy formulation.
- In formulating policy, and indeed in all our actions, we will be performing a balancing act. We want to ensure that each investor feels as well informed as the next and that, as an investor, he feels he will be fairly treated by the marketplace.

And of course, in the end one objective complements the other.

- The Securities Commission has the capacity to influence this balance, through both the formulation of new policies and through the administration of the Act, which reflects existing policies. As an administrator, or enforcer, the Commission has extraordinary powers. It can deny an issuer access to investors by refusing to issue a receipt for a prospectus. It can deny the statutory exemptions available to investors and necessary to enable them to trade securities and make acquisitions. It can issue orders on the manner in which a stock exchange carries on business and can even remove recognition of a stock exchange.
- All of these powers are exercisable in the public interest. What is in the public interest is difficult to discuss in the abstract. Each Commission has the capacity to make its personal imprint upon the meaning of the public interest. Our imprint will, I suppose, emerge. As it emerges, I can assure you that we will be considering that balance of investor comfort and entrepreneurial cost in capital formation.
- Furthermore, the Commission cannot be insensitive to economic and market conditions. We could, for example, contribute to the recession by unreasonable policies and unreasonable administration of our laws. On the other hand, we can strive to make our markets more efficient by being creative and by listening to the concerns of the investment community. Each Commission will strike its own balance. I will work to make ours sensitive to current conditions.
- We have to be sensitive as well to the legal framework for our system of securities regulation, that is, provincial jurisdiction over securities regulation. And let me make it clear that by being sensitive to provincial jurisdiction I don't mean "Let's work to keep the feds out". This is not a sufficient objective. The objective should be to make the existing provincial system work. The provincial system has the advantage of allowing each province the power to develop policies which it

considers to be in the public interest of the particular province, but in doing so, the province must try to develop policies which are compatible and consistent with those of the other provinces so that national transactions can be executed at a reasonable cost.

- In Ontario we have the follow-up offer provision which has tested and continues to test our national scheme of securities regulation. When it was legislated as part of the 1978 Act and came in force in September 1979 the Commission and the Legislature understood that they were innovating. The legislation provided that an exemption could be obtained from the obligation if it was in the public interest to do so. The then Minister of Consumer and Commercial Relations, Larry Grossman, requested Jim Baillie, the OSC Chairman at that time, to formulate a policy to provide grounds for granting exemptions from the requirement. Policy 3-41, published in August 1979, created a presumption that the Commission would grant an exemption from the follow-up, unless certain conditions existed.
- First, the follow-up requirement would apply only if the acquiror would acquire effective control by way of the private agreement. Even if effective control was to be acquired, the Commission would give an exemption, unless the sale was abusive to remaining shareholders, or the sale followed a public offering in which certain expectations were created, or the purchases were made from a random group, none of whom held effective control. The Policy also went on to specify circumstances where favourable consideration might be given to applications for exemption from the follow-up requirements. For example, repatriation of control, employee acquisitions of control, waiver of the follow-up offer by 2/3 of the minority and bona fide corporate reorganizations.
- We have come a long way in the 3 1/2 years since that Policy was published, to the point where, 3-41 was not included in the OSC Policies published late in 1982 because it has not reflected Commission policy since the Baillie Commission.
- Along the way, there have been some negative and positive developments. There has been uncertainty created as to whether the Commission will mandate a follow-up offer using its various coercive powers,

when the private agreement is not subject to the Ontario take-over bid requirements. It has been my experience that businessmen would rather have clear advice than uncertain advice, even if the advice is unfavourable, so that they can plan their affairs with confidence. On the other hand we have had some innovating with the development of the "topping up" concept which would allow purchasers of control to satisfy their follow-up obligations without eliminating the public float of the acquired company. And the vigorous application of Ontario's follow-up requirements has substantially enhanced that degree of comfort of the investor to which I referred earlier.

- The follow-up offer concept has been adopted in Quebec's new statute - which I understand should be proclaimed in 1983 - and in Manitoba's revisions to its securities legislation which was passed and received royal assent in 1980 but has not yet been proclaimed. A discussion draft of proposed legislation for B.C., published in July 1982, contained the follow-up provision. The concept has been expressly rejected in Alberta.
- A joint industry committee has been established by the SROs under the chairmanship of Pierre Lortie, to study the implications of the private agreement exemption and the follow-up offer concept. Its report will be made available to the Ontario Commission. A committee of three securities practitioners is reviewing Ontario's take-over bid provisions, including the follow-up offer. I expect to have a copy of their recommendations by the end of March.
- I would say the Ontario Commission will publish, shortly thereafter, at least in a preliminary way, its thoughts on what reforms, if any, are necessary, or whether a successor to Policy 3-41 should be developed. I am anxious to deal with this issue quickly to reduce confusion in the private sector and to ensure consistency, in this vital area of the law, between Ontario's approach and the approach of other provinces.
- Another priority for us will be monitoring the prompt offering prospectus system. It has been

called the prompt offering qualification system, but it is difficult to develop an acronym with that designation. I think it translates to "POQS". Prompt offering prospectus system, at least permits it to be designated the "POP" system.

- To date, we have had 6 annual information forms filed and our first one was accepted yesterday. You can expect the Commission to watch very carefully the use of the system with a view to convening - probably before the year end, depending upon usage - meetings with representatives of underwriters, issuers, and the lawyers and accountants to determine whether the objectives of the system are being met. The objectives are to provide certain issuers with quicker access to markets (in recognition of their volatility) without reducing protection to investors under the conventional system for prospectus financing.
- There are a number of aspects of the system that require monitoring, two of which I would like to comment on specifically. First, the system operates on the assumption that at least for the issuers which qualify to use the system, the market analyses and digests information about the issuers on a continuous basis. This process should be reflected in the price of the issuers' securities, thereby eliminating the need for a prospectus-style document which, at that point, would be redundant. Our Commission will be anxious to know whether in fact this is the case, and if it is, whether the system is too restrictive in defining ~~the class of~~ issuers. Your experience with this aspect of the system will be of great interest to us.
- The second aspect, which is of particular interest to us, is the impact of the POP system upon the performance of underwriters' due diligence. I mentioned that a condition to the system's objective is no reduction in investor protection. In my years of work on public financings, I was at least as impressed with the underwriting process as I was with the disclosure resulting from the process. What I mean by the process is the period preceding the offering document, of discussion, negotiation, probing, questioning and drafting amongst representatives of the issuer, the underwriters, the accountants and their advisors.

on in the POP system. The directors of the issuer will have the comfort of knowing that an arm's length party was involved in the prospectus preparation.

- A word about the expertised portion of the short form prospectus and in particular, the financial statements. When Policy 3-67 was first published, auditors were required to consent to being named in any report incorporated by reference in the short form prospectus. It is my understanding that for an auditor to consent, he would have to carry out a subsequent events review. The requirement for the auditor's consent was subsequently dropped because it was felt that the auditor's involvement could add expense and delay to financings done under the system. The auditor's involvement in POP system financings is still very much an open question with me. It may be that the practice will develop regardless of what is required by the policy that the directors of the issuer and the underwriters will insist upon the auditor's involvement. I will be interested to know what practice evolves and whether the policy should mandate the auditor's involvement - even if for no other reason than to clarify the auditor's liability.
- The POP system is an excellent example of a National policy initiative developed primarily by one or two provinces and ultimately adopted by others. The implementation of the policy required a lot of work, particularly by Ontario and Quebec, who realized that without the other provinces, the policy wouldn't work, and so they set out to involve the other provinces and ultimately have them participate in the policy.
- Another area where I would like to see more uniformity amongst the provinces relates to the participation of non-residents in our securities markets. In Canada we have a spectrum of approaches to non-residents, from the restrictive approach of Ontario to the more open approach of Quebec. We are all aware that Henry's Commission proposed studying this question but abandoned it when the government advised that non-resident involvement in the securities business is a question of government policy which has already been dealt with in the regulations to the Act, and that the Commission should stay out of it unless requested by the

government. Whether the current Commission enquires into this question will depend upon the governments's views on the question. I think the industry should be reviewing its strategy on the question. The Commission substantially adopted the industry recommendations in a 1979 report to the government, which would have permitted non-resident firms to establish offices in Canada to trade in non-Canadian securities. This is one model. Others are evolving. With improved communications and increasing internationalization of securities markets, Canadian issuers and investors will seek the most direct access available, to other markets. The Canadian industry should be part of this evolution.

- Finally, I would like to say a few words about what I see as this Commission's relationship with the self-regulatory organizations, the SROs for which it is responsible. My starting point is to state my unequivocal support in favour of the principle of self-regulation. The advantages of self-regulation, rather than direct government regulation, are apparent. Self-regulation may mean that those engaged in developing and enforcing regulations are more expert than a government regulator; self-regulation may allow more flexibility in enforcement procedures; self-regulation should mean the establishment of ethical standards beyond those that any law can prescribe; self-regulation should be more acceptable to the industry because the industry has the opportunity to participate in the regulatory process; in a system of self-regulation one's peers should be in a better position to detect breaches of the regulations, and so on.
- We have a highly developed system of self-regulation. The SROs perform a vital role in our system of securities regulation. And happily, there are substantial incentives for the self-regulators to make their system work. These include: careful enforcement of SRO rules will ensure that all industry competitors are competing according to the same rules. If there must be regulation, businessmen would generally prefer regulation by their peers. If SRO rules are not adequately enforced, sooner or later a government regulator will displace the SROs.

- The self-regulator then treads a very delicate line. He can't be overzealous for fear of being construed to be anticompetitive and he can't be underzealous for fear of being construed to be acting in the self-interest of the SRO members.
- I have been very impressed with the two SROs with which I am most familiar, the TSE and the IDA, in their commitment to maintaining this balance and to regulating their members in a manner consistent with efficiently functioning markets. But I believe this record is motivated by a number of factors, including avoidance of government intervention into SRO and members' affairs. The present law is such that the potential for government intervention always exists and I am aware of initiatives to attempt to reduce this potential. I believe that these initiatives are a mistake. I believe that it is in the SROs' long term interest to operate within a statutory framework which provides for government oversight and the potential for government intervention. In this system the Securities Commission is ultimately accountable for the total system of securities regulation. What the Commission must do is delegate aspects of the regulatory burden to the SROs, but the threat of the Commission retrieving this regulatory responsibility will in the long run ensure better regulation by the SROs. In the absence of such a regulatory framework, participants in the financial markets will inevitably question some aspects of the operation of the SROs. If an appeal to the Commission exists, these questions can be answered.
- What I think we and the SROs should concentrate on is the development of SRO by-laws and revising our securities legislation to provide expressly for delegation by the Commission of certain of its powers to the SROs and the development of procedures to enable the Commission to be satisfied that the SROs are fulfilling their mandate under the statute and the terms of their recognition by the Commission. In addition, there are certain aspects of the relationship between the Commission and the SROs that can be regularized, such as the procedure for approving SRO by-laws.
- But I emphasize that I think we will waste a lot of time if we engage in a debate as to what aspects of

the operation of the SROs the Commission can look into and as to what aspects of the operation of the SROs cannot look into. The Commission's mandate is to ensure that the markets function efficiently and that mandate includes ensuring that the SROs are operating in the public interest. And by public interest, I mean the Commission's perception of the public interest. The Commission's perception should prevail because the Commission responds to a broader constituency than the SROs.

- I should add that we are very much looking forward to formally recognizing the IDA as an SRO as soon as Bill 176 is passed. Bill 176 provides for recognition of SROs in addition to the TSE.
- In closing, and on behalf of the Commission, I would like to undertake to the SROs to provide our fullest co-operation in bringing to the market, as efficiently as possible, new products, and to provide our fullest co-operation in sharing our regulatory responsibilities in the most efficient manner possible. I also look forward to establishing a very open dialogue with members of the investment community. I believe that an open and trusting relationship between us is vital to efficient securities markets.

NOTICE OF HEARING

APPLICATION BY THE OPTIONS CLEARING CORPORATION  
FOR CONSENT OF THE ONTARIO SECURITIES COMMISSION  
TO TRADE IN EXCHANGE-TRADED OPTIONS ON  
DEBT SECURITIES AND CURRENCIES

The Ontario Securities Commission has received an application on behalf of The Options Clearing Corporation ("OCC"), the clearing corporation for exchange-traded options traded on the Chicago Board Options Exchange Incorporated, American Stock Exchange, Inc., Philadelphia Stock Exchange, Inc., and Pacific Stock Exchange seeking the consent of the Commission to permit trading in OCC issued options where the underlying securities are:

- 1) debt instruments, specifically treasury bonds and treasury notes of the United States of America, treasury bills of the United States of America, certificates of deposit issued by top-tier banks and GNMA securities; and
- 2) currencies, specifically British pounds, Swiss francs, Japanese yen, Deutsche marks and Canadian dollars or such additional foreign currencies for which provision for trading is made by the foregoing exchanges.

The Commission will hold a hearing on the application at its offices on the 18th Floor, 20 Queen Street West, Toronto, on Thursday, the 3rd day of February, 1983 at 2:30 o'clock in the afternoon, or so soon thereafter as the hearing can be held.

IN THE MATTER OF VIDEO INDUSTRIES INC.

NOTICE OF HEARING  
(Section 123)

UPON having made a Temporary Order on January 14, 1983 that all trading in securities of VIDEO INDUSTRIES INC. ("Video") should cease forthwith for a period of fifteen days;

TAKE NOTICE that the Ontario Securities Commission (the "Commission") will hold a hearing pursuant to section 123 of the Securities Act, R.S.O. 1980, c. 466, at its offices on the 18th floor, 20 Queen Street West, Toronto, on Thursday, the 27th day of January 1983 at 2:30 o'clock in the afternoon, or so soon thereafter as the hearing can be held, to consider whether the said Temporary Order should be extended, varied, or rescinded by reason of the allegation that the audited financial statements of Video for the period ending September 30, 1981 did not present fairly the financial position or results of the operations of that company in that:

1. The 1,800,000 Video common shares issued during the fiscal year ending September 30, 1981 in consideration for all of the issued and outstanding shares of T.V. Movie Centers Inc. were undervalued by approximately 65 cents per share; and
2. Losses were overstated by approximately \$860,000 as a result of an incorrect recording of a settlement agreement entered into by B.M.I. Capital Inc., an affiliate of Video, and Aetna Financial Services Ltd. after the end of the fiscal year ending September 30, 1981;

and as a result of the above allegations future trading in the securities of Video should cease until the financial position and results of its operations have been fairly presented;

AND TAKE NOTICE that if Video or any person or company served with this Notice fails to attend at the time and place aforesaid the Commission may proceed in their absence and they will not be entitled to any further notice in the proceedings.

IN THE MATTER OF THE SECURITIES ACT,  
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF GREYMAC CREDIT CORPORATION

NOTICE OF HEARING  
(Section 123)

TAKE NOTICE that the Ontario Securities Commission (the "Commission") will hold a hearing pursuant to section 123 of the Securities Act, R.S.O. 1980, c. 466 (the "Act"), on Tuesday, February 1, 1983 at 10:00 o'clock in the forenoon or so soon thereafter as the hearing can be held, at the offices of the Commission, 20 Queen Street West, 18th Floor, Toronto, Ontario, to consider whether it should extend the Order made on January 20, 1983 that trading should cease in the shares of Greymac Credit Corporation for a period of 15 days from the date thereof, by reason of the following allegations:

1. On October 7, 1982 Greymac Credit Corporation ("Greymac Credit") purchased approximately 56% of the outstanding common shares of Crown Trust Company ("Crown Trust") from CanWest Capital Corporation at a price of \$62 per share. Greymac Credit subsequently purchased approximately 34% of the outstanding common shares of Crown Trust at a price of \$62 per share.
2. On or about October 26, 1982, Greymac Credit entered into a written agreement (the "Agreement") with Crown Trust whereby Crown Trust would purchase all the shares of Greymac Trust Company ("Greymac Trust") at a price of \$11,000,00.00 plus a further issuance of shares of Crown Trust to Greymac Credit. The Agreement provided for the payment of a deposit of \$7,500,000.00 (the "Deposit") by Crown Trust to Greymac Credit, to be returned if the transaction was not completed; the Deposit was paid by a Crown Trust cheque deposited in the account of Greymac Credit on October 26, 1982.
3. On December 22, 1982, the Commission issued Temporary Orders (the "Temporary Orders") under sections 123 and 124 of the Act in respect of Greymac Credit and Crown Trust and of certain of the securities of Crown Trust and Greymac Trust.

4. Following a hearing on January 5, 1983, (the "Hearing") the Commission ordered that the Temporary Orders be extended until certain undertakings had been received by the Director of the Commission, and issued a Direction pursuant to section 16 of the Act (the "Direction") providing as follows:

"THE COMMISSION HEREBY DIRECTS, pursuant to section 16 of the Act, Greymac Credit to hold the sum of \$7,500,000.00, being a deposit paid by Crown Trust to Greymac Credit on or about October 26, 1982, until such time as the said sum is deposited with an independent financial fiduciary institution acceptable to the Director, on terms acceptable to the Director."

At the Hearing, counsel for Greymac Credit advised the Commission that the Deposit funds were held by Greymac Credit at that time.

5. Greymac Credit, following the Hearing, proposed depositing the Deposit with an institution and upon terms which were not acceptable to the Director. The Deposit has not been deposited with any institution as provided for in the Commission's Direction, nor has Greymac Credit made any subsequent proposal to the Director. The Direction remains in force.
6. On January 21, 1983, upon the application of the Commission pursuant to subsection 17(3) of the Act, an Order was made in the Supreme Court of Ontario appointing Coopers & Lybrand Limited receiver and manager of Greymac Credit. At the date of this Notice of Hearing, neither Greymac Credit nor Coopers & Lybrand has provided information to Commission staff to establish either that the Deposit was in the possession of Greymac Credit at the time of the Hearing or that it has been held by Greymac Credit pursuant to the Direction.
7. At the present hearing, Commission staff may make such further and other allegations and tender such evidence concerning the Deposit and other aspects of the affairs of Greymac Credit as it may consider relevant and proper and the Commission may permit.

AND TAKE NOTICE that any party to the proceeding may be represented by counsel of his choice at the hearing if he attends or submits evidence thereat;

AND TAKE NOTICE that upon failure of any party to attend at the time and place aforesaid, the hearing may proceed in his absence and he is not entitled to any further notice in the proceedings.

6.3 Where a preliminary short form prospectus is filed in respect of a proposed distribution of preferred shares or debt securities having a term to maturity in excess of one year, the reporting issuer shall file with the preliminary short form prospectus an explanation of the manner by which the statements of asset coverage and earnings coverage are to be calculated.

6.4 At the time of the filing of a preliminary short form prospectus under this policy, the issuer shall file with the Director of the Ontario Securities Commission, for statistical and informational purposes, a certificate signed by an officer of the issuer setting out the aggregate market value of the issuer's issued and outstanding equity shares (a) during the last calendar month of the issuer's most recently completed financial year, and (b) as at a specific date within 30 days prior to the filing of the preliminary short form prospectus, in each case calculated in accordance with the applicable provisions of section 2.2. The information so obtained by the Director of the Ontario Securities Commission will be provided to the CSA annually.

6.5 Any statement contained in a document incorporated or deemed to be incorporated by reference in the short form prospectus shall be deemed to be modified or superseded for purposes of the short form prospectus to the extent that a statement contained in the short form prospectus or in any other subsequently filed document which also is or is deemed to be incorporated by reference modifies or replaces such statement. The modifying or superseding statement may, but need not, state that it has modified or superseded a prior statement or include any other information set forth in the document which is not so modified or superseded. The making of a modifying or superseding statement shall not be deemed an admission for any purposes that the modified or superseded statement, when made, constituted a misrepresentation or an untrue statement of a material fact or an omission to state a material fact necessary to make a statement not misleading. Any statements so modified shall not be deemed in its unmodified form to constitute part of the short form prospectus.

6.6 Nothing in this policy shall be construed to provide relief from liability arising under the provisions of the Act of each province in which the short form prospectus is filed where the short form prospectus contains an untrue statement of a material fact or omits to state a material fact that is required to be stated therein or that is necessary to make a statement not misleading in light of the circumstances in which it was made.

## 7. Filing Procedures for Short Form Prospectus

7.1 A preliminary short form prospectus and short

- 11 -

form prospectus and supporting material are to be filed pursuant to National Policy No. 1 and the prospectus clearance procedures referred to therein, except as set out in section 7.2, will be applicable. A reporting issuer that files a preliminary short form prospectus under this policy shall be deemed to consent to the issuance by the director of a receipt for its short form prospectus in accordance with the timing provisions of section 7.2. Where a director exercises his authority under section 2.3 of this policy, the timing provisions of section 7.2 may not be applicable with respect to the filing in his province.

7.2 The principal jurisdiction will provide by telex any comments on the contents of the preliminary short form prospectus (but excluding any comments on the material incorporated in the preliminary short form prospectus by reference) to the other Commissions involved, as well as to the reporting issuer making the filing, within the third working day following the filing of the preliminary short form prospectus with the principal jurisdiction. Within two working days from the day of receipt of the comments, if any, from the principal jurisdiction, the other Commissions will furnish the director in the principal jurisdiction by telex with any additional comments they may have on the contents of the preliminary short form prospectus. In the event that the principal jurisdiction receives no comments from any other Commission within such additional two working day period, it will be assumed that such Commission will accept the filing of the short form prospectus in final form.

prepared and certified in accordance with Appendix A within 140 days from the end of each financial year of the reporting issuer.

2. An annual information form filed with the director by a reporting issuer shall be accompanied by a certificate executed on behalf of the reporting issuer by two senior officers of the reporting issuer under seal that the reporting issuer satisfies the criteria of Clause B.1(a) and either Clauses B.1(d) and (e) or Clause C.1(a), as the case may be, at the time of filing of such form.

3. The annual information form shall also be accompanied by an undertaking of the reporting issuer to the Commission to provide to any person or company, upon request to the secretary of the reporting issuer:

(a) when the reporting issuer is in the course of a distribution of its securities pursuant to a short form prospectus or has filed a preliminary short form prospectus in respect of a proposed distribution of its securities,

(i) one copy of the latest annual information form, together with one copy of any document, or the pertinent pages of any document, incorporated therein by reference, filed with the director under this Policy Statement;

(ii) one copy of the comparative financial statements of the reporting issuer filed under the Act for the issuer's most recently completed financial year in respect of which such financial statements have been issued, together with the report of the auditor thereon;

(iii) one copy of the information circular of the reporting issuer filed under the Act in respect of the most recent annual meeting of shareholders of the reporting issuer which involved the election of directors; and

(iv) one copy of any other reports filed pursuant to the Act which are incorporated by reference into the preliminary short form prospectus or the short form prospectus; or

(b) at any other time, the documents referred to in Clauses (a)(i), (ii) and (iii) above,

provided that the reporting issuer may require the payment of a reasonable charge from such a person or company who is not a security holder of the reporting issuer where the documents are furnished under Clause (b) above.

4. The first annual information form submitted by a reporting issuer to the Commission for filing under this Policy Statement shall be subject to acceptance for filing by the director with such amendments or additions thereto, if any, as the director considers necessary in order to comply with the requirements set out in Appendix A. Where a director has not informed the reporting issuer in writing within ten business days of the receipt of the first annual information form by the director that such annual information form does not comply with the requirements set out in Appendix A, the annual information form submitted by the reporting issuer shall conclusively be deemed to comply with such requirements for the purposes of this Policy Statement.

5. The director may require that a new annual information form that may be filed subsequently by a reporting issuer under Paragraph E.1 shall be subject to the review and acceptance for filing procedures of section E.4 provided that the director so advises the reporting issuer in writing within 30 days following the end of its financial year. Where the director has not so notified a reporting issuer, the next annual information form of the reporting issuer that is filed under Paragraph E.1 shall not be subject to the review and acceptance for filing procedures of Paragraph E.4.

6. A reporting issuer may file in lieu of an annual information a document containing either of:

- (a) a current Form 10-K accepted for filing by the Securities and Exchange Commission of the United States of America under the Securities Exchange Act of 1934, or
- (b) a prospectus for which a receipt has been obtained from the director within the previous 12 months;

provided that the document includes,

- (c) a certificate in the form required by Item 10 of Appendix A;
- (d) the additional material referred to in Appendix A that is not included in the Form 10-K or prospectus; and
- (e) cross references between the items required to be addressed in Appendix A and their treatment in the Form 10-K or prospectus,

and all provision of this policy relating to an annual information form shall apply mutatis mutandis to such document.

ORDER  
(Section 73)

UPON the application of Heritage Standard Bank and Trust Company ("Heritage") to the Ontario Securities Commission (the "Commission") pursuant to Section 73 of the Securities Act, R.S.O. 1980, c.466 (the "Act");

AND UPON Heritage having represented to the Commission that:

- (i) Heritage is Trustee of the Mervyn C. Phillips Trust and the Mervyn C. Phillips Residuary Trust (the "Trusts") which in the aggregate hold a total of 188,104 shares of the Common Stock (the "Trust Shares") of Griffith Laboratories, Inc. ("Griffith"), a closely held Illinois corporation;
- (ii) Pursuant to a certain purchase agreement dated December 17, 1982 (the "Agreement"), Griffith and the Griffith Laboratories, Inc. Employee Stock Ownership Trust (the "ESOT") propose to purchase a total of 220,134 of the 1,287,851 shares of Griffith Common Stock, U.S. \$5.00 par value outstanding (such common stock as well as all other shares of such Common Stock being hereinafter referred to as the "Shares") from the Trusts, Mervyn C. - (v) The purchase price of U.S. \$22.75 per share is the same price per share at which the Trust Shares will otherwise be sold to Griffith and the ESOT pursuant to the Agreement;
- (vi) Neither Griffith nor Heritage are reporting issuers under the Act;
- (vii) As of September 25, 1982, Griffith's most recent fiscal year-end, there were 1,287,831 Shares outstanding and as of September 27, 1982 there were twenty-eight (28) holders of Griffith common stock resident in Ontario holding in the aggregate 50,678 Shares (3.93%);
- (viii) The Offer and the sale of the Trust Shares thereunder will be made by Heritage in the United States of America in full compliance with the Securities Act of 1933, the Blue Sky or securities laws of each state of the United States in which any shareholders reside, as well as the general corporation law of the State of Illinois; and

(ix) To date, Heritage has not mailed any material related to the offer to holders of Shares resident in Ontario.

AND UPON the Commission being satisfied that to make this Order would not be prejudicial to the public interest;

IT IS ORDERED, pursuant to Subsection 73(1) of the Act that the proposed Offer and the sale of Trust Shares thereunder to holders of common stock of Griffith resident in Ontario is not subject to Sections 24 and 52 of the Act, on the condition that all material relating to the Offer which has been or will be sent by Heritage to common shareholders of Griffith resident in the United States of America, together with the audited financial statements of Griffith for the fiscal years ending September 25, 1981 and 1982, shall be sent to common shareholders of Griffith resident in Ontario and a copy thereof filed with the Commission.

FOOTNOTE:

The Commission recognizes that it may sometimes be necessary for persons making a written submission in response to a request for comments to request that it be treated as confidential. For example, it may contain sensitive statistical information. However, the Commission hopes that requests for confidentiality will be restricted, for example by including confidential information in a separate submission or schedule and limiting the request to that separate document. Further, the Commission wishes it understood that it will take into account the unwillingness of the person concerned to make a submission available for public debate in determining what weight should be attached to the arguments advanced. Of course, other considerations may apply where the submissions are made in connection with a disciplinary or other proceeding of a quasi-judicial nature.

NOTICEREGISTRANTS' SUBSCRIPTION TO BULLETIN

The Commission regrets that due to financial restraints, it will no longer be possible to supply the Bulletin to registered dealers and advisers free of charge after 31 March, 1983. Therefore, if a dealer or adviser is to be adequately informed with respect to amendments to the Securities Act and the Commodity Futures Act and the regulations thereunder, emerging policies and decisions and rulings of the Commission, it is necessary that the registrant obtain a subscription to the Bulletin.

As previously announced, the Bulletin will be published by Dataline Inc., 175 Bedford Road, Toronto M5R 2L2. Registrants are urged to ensure continued receipt of their Bulletins by contacting Dataline Inc. directly. The general subscription price is \$225.00 per year.

The Commission considers awareness of materials published in the Bulletin to be important to each registrant and will review the list of subscribers after a three month period to determine the number of registrants then listed as subscribers.

## NOTICE

### EARNINGS FORECASTS - OSC POLICY 5.8 PRACTICE NOTE

Section 48 of the Regulations (as amended by O. Reg. 808/82) to the Act provides that the Director may permit the inclusion of a forecast in a prospectus. The Director has sought direction from the Commission as to the circumstances in which permission to the inclusion of a forecast in a prospectus should be granted.

The Commission considered a number of factors in reaching its conclusion on this matter, including the following:

1. Should issuers seeking to include a forecast in a prospectus be required to consult with the Director prior to the filing of the preliminary prospectus? Concern was expressed that if a forecast was included in a preliminary prospectus and the Director ultimately concluded the forecast was not acceptable, the harm would have been done and the issuer could have marketed securities relying upon the forecast included in the preliminary prospectus.
2. The Commission noted the provisions of subsection 60(2) of the Act which require the Director to refuse to issue a receipt for a prospectus if the prospectus appears to contain a forecast that is misleading, false or deceptive.
3. At this time, the Commission has limited experience with forecasts and any guidelines would have to be developed relying upon this limited experience. In addition, the Commission cannot at this time determine the frequency with which the Director's permission will be sought to the inclusion of forecasts in prospectuses.
4. A forecast included in a prospectus will be subject to the same diligence procedures as apply to the balance of the prospectus and the participants in the prospectus financing will be subject to the same liabilities with respect to forecasts as they are for the balance of the prospectus.
5. OSC Policy 5.8 provides that, pending further action by the Canadian Institute of Chartered Accountants ("CICA"), earnings forecasts prepared and reviewed in accordance with the proposed CICA Accounting and Auditing Guidelines (published in the OSC Weekly Summary for the

week ended July 18, 1980) will be acceptable to the Commission for this purpose.

After considering these factors, the Commission has concluded that, for the time being, issuers will be free to include earnings forecasts which comply with the CICA Guidelines in a preliminary prospectus without prior consultation with the Director. The Accountants' comments upon the forecast must be signed and included in the preliminary prospectus. The Commission staff will review and comment upon forecasts as part of its usual review of preliminary prospectuses. If a forecast seriously departs from the requirements of section 48 of the Regulations, Policy 5.8 or the CICA Guidelines, or otherwise raises serious concerns as to whether its inclusion is in the public interest, the Director will, depending upon the seriousness, take whatever steps are dictated by the circumstances. Such steps could include simply providing comments to the issuer, but could also include, in extreme cases, the exercise of powers under sections 67, 69 or 123 of the Act.

Based upon the experience gained relying on this approach, the Commission expects that it will be in a position to assess whether guidelines should be established as to the use of earnings forecasts in the future. Until such guidelines are formulated, in reviewing earnings forecasts included in preliminary prospectuses, the following matters will be considered and comments raised, if appropriate:

- (i) compliance with the requirements of section 48 of the Regulations, Policy 5.8 and the CICA Guidelines;
- (ii) whether the forecast includes sufficient detail as to assumptions so as to enable investors to determine the effects of alternative assumptions;
- (iii) whether the assumptions upon which the forecast is based are demonstrably unreasonable and therefore merit challenge.

The Commission has advised the Director that it will be available to consult with the Director on an ongoing basis to deal with issues as they arise.

If an issuer wishes to include a forecast in a prospectus, but is concerned about any aspect of the forecast, the issuer should, as always, feel free to consult with the Deputy Director, Corporate Finance, prior to filing the preliminary prospectus.

IN THE MATTER OF THE SECURITIES ACT,  
R.S.O. 1980, CHAPTER 466

AND

IN THE MATTER OF CANADA CEMENT LAFARGE LTD. AND  
CITADEL CEMENT CORPORATION

RULING  
(Section 73)

UPON the application of Canada Cement Lafarge Ltd. ("CCL") and Citadel Cement Corporation ("Citadel") to the Ontario Securities Commission (the "Commission") for a ruling pursuant to section 73 of the Securities Act, R.S.O. 1980, c. 466 (the "Act") with respect to various trades to be made pursuant to or as a result of proposed Articles of Amendment and a subsequent take-over bid involving CCL and Citadel;

AND UPON being advised that:

1. CCL, a Canada corporation, is a reporting issuer as defined in the Act;
2. Citadel, a Maryland corporation, is not a reporting issuer as defined in the Act, and is a substantially wholly-owned subsidiary of CCL;
3. Lafarge Coppee, S.A. ("Lafarge Coppee"), a French corporation, directly or indirectly owns 56.7% of the CCL Common Shares, 22.2% of the CCL First Preference Shares, 33.2% of the CCL Series A Second Preference Shares, and 100% of the CCL Series B Second Preference Shares, both series of Second Preference Shares being convertible into CCL Common Shares;

...../2

4. Subject to requisite shareholder approval, CCL proposes to amend its articles of incorporation to, inter alia:
  - (i) reclassify on a 1.05 for 1 basis all of its outstanding Common Shares into a new class of preference shares ("Exchangeable Shares") which will be non-voting, exchangeable into Citadel Common Shares on or after a date in June, 1983, entitled to a dividend equivalent to that paid on the Citadel Common Shares (payment of such dividend to be guaranteed (the "Guarantee") by Citadel) and entitled through a trust mechanism (the "Trust") to an indirect beneficial interest in one Citadel voting share ("Voting Share") for each Exchangeable Share held;
  - (ii) subdivide on a 1.05 for 1 basis all of its outstanding Series A Second Preference Shares and amend their terms and conditions to make them convertible into Exchangeable Shares on the same basis as they are now convertible into Common Shares;
  - (iii) reclassify all of the Series B Second Preference Shares into Common Shares; and
  - (iv) authorize additional Common Shares following the reclassification of the presently issued and outstanding Common Shares into Exchangeable Shares;
5. Lafarge Coppee has agreed prior to but conditional upon the passing of the Articles of Amendment to exchange most of the Common Shares and Series B Second Preference Shares of CCL which it owns for Citadel Common Shares on a less than one for one basis, in order to provide for the 5% "premium" given to shareholders of CCL (other than Lafarge Coppee and the French Banks) on the reclassification described in paragraph 4 above and the 25% "premium" on the take-over bid described in paragraph 7 below;
6. Citadel, CCL and Lafarge propose to enter into a trust agreement which will provide a mechanism for the exchange of CCL Exchangeable Shares and the voting of Citadel Voting Shares, and Citadel

will also enter into a guarantee agreement with respect to payment of the requisite dividends on and the liquidation value of the CCL Exchangeable Shares;

7. Following shareholder approval of the Articles of Amendment, Citadel will make a pro rata offer (the "Citadel Offer") to acquire 1,600,000 CCL Exchangeable Shares on the basis of 2 Citadel Common Shares for each 1.6 CCL Exchangeable Shares tendered;
8. Application has been made to list the CCL Exchangeable Shares and the additional CCL Series A Preference Shares on The Toronto Stock Exchange and on the Montreal Exchange, and application will also be made to list the Citadel Common Shares once sufficient distribution is attained; and
9. The CCL Exchangeable Shares, together with the right to vote in Citadel and the exchange privilege described in paragraphs 4 to 8 above, will provide their holders with substantially the same interests in the same consolidated group of companies as those shareholders presently have through their shares in CCL except that the interests of Lafarge Coppee will be diluted and the interests of the other shareholders (excluding the French Banks) increased;

AND UPON being satisfied that to make this order would not be prejudicial to the public interest:

IT IS RULED pursuant to section 73 of the Act that:

1. Section 24 or 52 of the Act shall not apply to the transfer of interests in the Trust and the Guarantee to CCL shareholders resident in Ontario in connection with the reclassification of CCL Common Shares into CCL Exchangeable Shares;
2. Section 24 or 52 of the Act shall not apply to the issue of Citadel Common Shares in exchange for CCL Exchangeable Shares, provided that:
  - (a) the holders of CCL Exchangeable Shares receive a copy of the securities exchange

take-over bid circular in connection with the Citadel Offer, and, until exercising their exchange privilege, receive all of the continuous disclosure material required to be sent by Citadel to its shareholders; and

(b) the first trade in such Citadel Common Shares is made in accordance with subsection 71(5) of the Act and section 18a of the Regulation under the Act, except that clause 71(5)(a) of the Act need not be complied with to the extent that it would otherwise require that Citadel shall have been a reporting issuer for twelve months; and

3. Section 52 of the Act shall not apply to the first trade in CCL Exchangeable Shares acquired through a right of conversion, provided that such first trade is made in accordance with subsection 71(5) of the Act and section 18a of the Regulation under the Act, except that for the purpose of clause 71(5)(b) of the Act, disclosure to the Commission may be made by CCL on a monthly basis of the number of such shares acquired through a right of conversion;

ALL UPON THE CONDITION that the proposed Articles of Amendment are effective and the Citadel Offer is made on or before June 30, 1983.

IT IS ORDERED pursuant to section 140 of the Act that the Temporary Order be and it hereby is rescinded effective as of February 28, 1983.

AND

IN THE MATTER OF HUMBOLDT ENERGY CORPORATION

(Section 99)

DECISION

EXTRACT FROM MINUTES OF ONTARIO SECURITIES COMMISSION  
MEETING OF THURSDAY, JANUARY 27, 1983

The Commission then considered the application dated January 11, 1982 made under clause 99(e) of the Securities Act, R.S.O. 1980, c. 466 (the "Act") by Humboldt Energy Corporation ("Humboldt").

Humboldt, a British Columbia corporation and a reporting issuer under the Act, entered into an agreement dated December 13, 1982, with Prifina Treuhand A.G. ("Prifina"), a Swiss corporation, under which Humboldt would purchase 100,000 common shares of Orbit Oil & Gas Ltd. ("Orbit"). The address of Prifina on the books of Orbit is outside Ontario. Orbit is an Alberta corporation whose common shares are listed on the Vancouver and Alberta Stock Exchanges and is a reporting issuer under the Act. Approximately 194 Ontario shareholders hold 33% of Orbit's issued and outstanding capital. At the date of the agreement Humboldt, together with its controlling shareholder Robert W. Lamond, owned approximately 28.75% of Orbit's issued and outstanding common shares. The 100,000 shares to be purchased from Prifina represents an additional 2.4% of Orbit's issued and outstanding capital.

The purchase price to be paid to Prifina by Humboldt under the said agreement was \$400,000 (Canadian), or \$4.00 (Canadian) per share. The "market price" of Orbit common shares at the date of the agreement, as that term is defined in the Act, was \$3.92 (Canadian) per share. Humboldt would therefore be paying a premium over "market price" of 8 cents per share or some 2.04% over the "market price".

Humboldt applied under clause 99(e) of the Act for a ruling that it be exempted from the provisions of Part XIX of the Act in connection with its proposed purchase from Prifina, on the ground that the transaction did not constitute a "take-over bid" as defined in the Act. Even if the Commission determined that the transaction was not a take-over bid, Humboldt asked that the Commission not issue an order against it under section 124 of the Act in the event that it were to proceed with the purchase.

After hearing from staff counsel, and after discussion, the Commission determined that the proposed purchase by Humboldt from Prifina did not constitute a "take-over bid" as defined in the Act since the address of Prifina on the books of the offeree company, Orbit, was not in Ontario, so no order could be given under clause 99(e).

The Commission further decided that, in the circumstances of this particular case which the Commission did not regard as abusive to minority shareholders or as having a negative impact on the capital markets, it would not exercise any of the powers available to it under the Act, including the issuance of an order under section 124, in order to compel Humboldt to make a follow-up offer to the remaining Orbit common shareholders in Ontario.

The Commission noted that there was some uncertainty in the marketplace as to the circumstances in which the Commission would exercise its powers under the Act, particularly under sections 123 and 124, where there was no "take-over bid" under the Act but where the transaction had a connection with Ontario, such as the involvement of reporting issuers or Ontario shareholders holding shares in offeree corporations.

The Commission noted that it was in the process of reviewing Part XIX and in particular the circumstances when the follow-up offer obligation should apply. Pending the completion of this review the Commission would develop guidelines as to the circumstances in which it would consider exercising its powers in the Act to encourage a follow-up offer. In the meantime the Commission noted that it would consider taking action in circumstances which might be regarded as abusive to minority shareholders or as having a negative impact on the capital markets.
